Choice Poetry.
SHADOWS ON THE WALL.
Beside the hearth there is an hour of dreaming,
And calm and quietude of soul;
When life and death have lost their outer semblance,
And thoughts are with us as in a dream.

What is Conscience?
WENDELL PHILLIPS, in his late eulogy upon Theodore Parker, said: "The very last page those busy fingers ever wrote, tells the child's story, then which he says, no event in my life has made so deep an impression on me. A little boy in petticoats, in my fourth year, my father sent me from the field home. A spotted tortoise, in shallow water, at the foot of a rhodora, caught his sight, and he lifted his stick to strike it, when a voice said it is wrong."

The Silent Conflicts of Life.
A triumph in the field is a theme for poetry, for painting, for history eulogistic, and grandstanding agencies; whose untold tributes constitute fame; but there are victories won by men over themselves more truly honorable to the conqueror than any that can be achieved in war. Oh, though these silent successes we never hear, the battles in which they are obtained are fought in solitude and without help, save from above.

True Politeness.
He who has a heart glowing with kindness and good will toward his fellow men, and who is guided in the exercise of those feelings by good common sense, is the truly polite man. Politeness does not consist in wearing a white silk glove, and gracefully lifting your hat as you meet an acquaintance; it does not consist in artificial smiles and flattery; but in a silent and honest desire to promote the happiness of those around you; in the readiness to sacrifice your own ease and comfort to add to the enjoyment of others.

A Wife to Husbands Only.
LOVE A WIFE AND CARE FOR A WIFE.
I wish every husband would copy into his memorandum book this sentence, from a recently published work: "A word said, a line written, and we are happy; omitted, our hearts ache, as if for a great misfortune. Men cannot feel it or guess at it; if they did, the most careless of them would be slow to wound us."

Useful Medical Hints.
We find the following remarks (by the editor) in the Cincinnati, a scientific and agricultural journal, published at Cincinnati, Ohio:

Paying an Election Wager.
Next to the virtue of not betting at all is that of paying them when lost, however disagreeable and inconvenient the conditions. Mr. W. A. Pearce, of Portland, made a wager that he would retail forty bushels of charcoal if Lincoln was elected President. Good as his word, he met the conditions. He provided a white cart with a colored driver, and appeared with blue overalls and pants, and a shining stove-pipe black hat, which completely eclipsed that worn by the Prince of Wales, according to the Advertiser of that city. The coal which he had engaged from the country, not arriving promptly, he supplied himself at the Portland and Boston steamboat office, and started from the front of the old City Hall. He addressed the crowd before he began his sales, and, much to their amusement, took a lemon out of his pocket, which he applied after the manner of his political leader, Mr. Douglas, when here, "to his pipes." As it was a condition of the wager that but one bushel of coal should be sold at one place, it took all the forenoon and part of the afternoon, also, to peddle out the load and make the necessary speeches.

A Son of Henry Clay on Mr. Lincoln.
Under date of November 1, 1860, Thomas H. Clay, son of the Great Commoner, wrote the following in regard to Mr. Lincoln, and the results of his election:

THE ADAMS SENTINEL
CITYSBURG:
WEDNESDAY, NOV. 22, 1860.

The customary Union Services will be held in St. James Church, York street, on Thanksgiving Day, (to-morrow), at 10 o'clock, A. M. The sermon will be preached by Rev. T. P. BUCHER. All the congregations in town are invited to attend.

On Saturday last, a Congregational meeting was held in the Presbyterian Church in this place, and a call given to the Rev. Mr. SAMPLE, of Bedford, to be their Pastor. It is not known whether he will accept or not.

Suspension of Specie Payments.
The Banks of the South, in their wildness, suspended specie payments, to add to the panic which they were laboring hard to excite in the political world. The consequence has been, that the Virginia Banks, and the Baltimore Banks, in self defence, had to follow their example. This led the Philadelphia Banks, and the Banks of the Interior to do the same, also, and for the time being, prevent being drained of the precious metals by brokers. The Bank of Gettysburg, on Friday, as a matter of prudence, temporarily suspended, although unable to bear up against any shock—but still is disposed to accommodate in the way of small sums. No rush has been made upon it, nor will there be—such perfect confidence being felt by the community in its stability, and also from the fact that there is plenty of specie in circulation for all business purposes, and the panic is but a short-lived one, nothing being developed on which to form a basis for such distrust.

Congress will meet on Monday next. As the officers chosen at last session continue during this, there will be no delay in organization. It is highly probable, therefore, that the Message of the President may be sent in to Congress on the day of meeting, as there is, naturally, a considerable desire to know what his opinions and recommendations may be, as regards the late violent demonstration in the South.

To-morrow will be Thanksgiving-day, and we presume will be generally suspended by our citizens, in a general suspension of business, and attendance in the morning upon the religious exercises which will take place.

Brigadier General.
Col. C. HENRY BUEHLER was elected, on Saturday last, Brigadier General of this Brigade, in room of Gen. William F. Walter.

COSMOPOLITAN.—HENRY G. GRYER, at the Post-Office, has been appointed an Agent of the Cosmopolitan Art Association, and is now receiving subscriptions for membership. See advertisement in another column. The inducements for the present year are the largest ever offered.

There is a very troublesome time in Southern Kansas. A captain Montgomery, with four or five hundred armed men, with plenty of arms, ammunition, &c., has been scouring the country, robbing and plundering, and, it is said, has broken up the U. S. Court, and taken possession of Fort Scott. It is alleged their object is to make a raid upon Missouri and Arkansas. The Government has dispatched troops to arrest the lawless marauders.

The different military companies of St. Louis met at their armories on Friday night, and they received their orders to proceed at once to the frontier. Quite a number of recruits enrolled themselves for the campaign. The Brigade, 600 strong, fully armed, infantry, cavalry and artillery, left on Saturday, with rations for a month's campaign.

The Monetary Crisis.
The suspension of the Washington city banks created no unwelcome excitement in commercial circles. The citizens approved of it as the means of temporary relief. The banks continue to receive special deposits, giving checks for the same, and paying out their own notes.

The Hon. HENRY K. STRONG, of Philadelphia, died on Wednesday last. He was a member of the last Legislature, and was recently the Speaker of that body. He has been a good while in public life, and his geological researches were of a very interesting character.

The steamship Ariel arrived at New York on Sunday, with California dates to the 10th inst., 250 passengers, and \$1,000,000 in specie. There is no news of consequence.

There was a fearful storm raging on Saturday on the Lakes, and great damage was expected to vessels who were out. The snow was blinding, the cold very great, and the wind blowing a terrible gale from the west.

We would call attention to the change of location of Dr. FOREST, ALEX. STRONG & Co's. depot for prints, &c. They are now situated in Duane street, where they continue to furnish everything in their line, cheaper than any in the market.

Gov. Packer and the Abolitionists.
Gov. Packer, of Pennsylvania, a few days ago received a letter signed by James Redpath, on behalf of several young men in Boston, requesting him to attend a convention in that city to devise measures to abolish slavery. Gov. P.'s reply is as follows:

EXECUTIVE DEPT., Harrisburg,
November 21, 1860.
SIR:—In my opinion, the young men whose names are attached to the foregoing letter would better serve God and their country by attending to their own business. John Brown was rightfully hanged, and his fate should be a warning to others having similar proclivities.

Wm. F. PACKER,
Gov. of Penna.

From Oregon.
By the last political returns from Oregon, there is a strong probability that Lincoln has carried that State, and that Douglas is 6,000 behind Breckinridge. The probabilities, too, by the last account, are that Lincoln has carried California. The Douglas party has a majority in the State Legislature. More than \$100,000 was bet on the election in San Francisco alone. The total vote cast in the city was 14,415—more than 3,000 excess over last year.

The Prince of Wales had arrived at home, by the last intelligence from England, as well as his brother Prince Alfred. Both were received with a hearty welcome.

Mr. Lincoln and Mr. Hamlin have been together at Chicago for some days, and have been visited by thousands. This is the first time these two successful candidates have met. The office-seekers from different States have been about Mr. Lincoln, but he is too much for them. He refuses to promise places to any person, much less to those who have harassed him, and tried to monopolize his time while he was at Chicago.

The British legation in the City of Mexico was sacked a week or two ago, and a million of dollars, belonging to the British bond-holders, carried off. This robbery has caused great excitement throughout the country.

It appears the South Carolina Congressmen have graciously condescended to reconsider their intention of not taking their seats at Washington in the coming session, but will make their appearance there on Monday next. Good for them!

Victor Emanuel, King of Sardinia, has, by proclamation, accepted the sovereign authority of the Two Sicilies, which had been transferred to him by universal suffrage. He entered Naples on the 7th, and Garibaldi resigned his dictatorship, and went to his island home, Caprera.

THE ELECTORAL COLLEGE.—Gov. Packer has issued his proclamation, announcing the election of the Lincoln electors, and calling them to assemble at Harrisburg on the first Wednesday of December.

The latest accounts from some of the commercial centres seem to show confidence that the financial panic is nearly at an end, or that the worst is over. The report of the New York board of currency presents a very hopeful view of this subject. By the 1st of February it is promised that all will be right. The chief causes of panic in New York were a fear of the disruption of the Union, resulting from the secession movements, and a fear that the South would repudiate their debt to the North. The latter apprehension is without foundation, and arose from the hasty declarations of over-heated partisans.

Upon this subject there are some excellent remarks in the Charleston Courier from a merchant. He says, "There is a self-righting principle in trade that always adjusts itself, and even adapts itself to the existing state of things. The present case will prove to be an instructive illustration of the fact." He opposes bank suspension, unless the suspension of New York banks render it necessary. As to repudiation, he says "It is a word that has never found a place in our vocabulary. Further, he says the condition of the whole South is sound, and the indebtedness of the North to the South is not large, and is less than usual. The crop of cotton will bring two hundred millions, and in sixty days gold will come from Europe in quest of it, and find its way to the southern cities.

Thus commerce will adapt itself to political exigencies. This is fortunate, because the political agitation at the South would be greatly aggravated by a continued and alarming financial panic.

Sixty days hence, according to the views both of northern and southern financial men, there will be more specie in our banks than there ever was before, and even now there is twice as much as there was in 1857. A restoration of commercial confidence and general prosperity may then be confidently expected, and especially at the South.

EFFECTS OF DISUNION TALK.—Already the effects of disunion threats are manifesting themselves. Negroes have gone down 80 per cent., and soon other property will begin to depreciate. And for what? A miserable abstraction. Should an attempt be made to execute these threats, men now wealthy will be reduced to poverty. An intelligent gentleman, and a Democrat withal, who is worth largely over \$100,000, remarked to us the other day that he did not think the value of his property now was more than half it was on the 1st of August.

Bank Suspensions.
PHILADELPHIA, Nov. 22.—The bank presidents resolved to suspend specie payments at once.

The action of the bank presidents in suspending specie payments at the present emergency is generally regarded with favor by business men and the press; it having been determined as a precautionary measure to enable banks to expand their discounts, and as a preventive to the scenes of the panic of 1857.

Financial editors express the opinion that the condition of affairs this afternoon is evidence of a healthy state of trade, and cheerfulness among business men. There has been more discounting to-day than for any day during the last two weeks. The banks are manifesting every disposition to accommodate. No failures are reported.

Boston, Nov. 22.—No serious results have yet attended the financial pressure, and remittances from the hottest part of the South continue to come in as usual. The statement of repudiation by southern creditors is more so far as this city is concerned. Should the emergency require it, the directors of all the Boston banks propose to discount to the amount of five millions, which will speedily make money easy in this city.

A letter from Walla-Walla, Oregon, dated Nov. 3d, says that Capt. Dent, who has been to the scene of the massacre of emigrants by the Indians, found a dozen of them alive, subsisting on the dead bodies of their companions. One family, named Myers, consisting of a mother and five children, together with a brother-in-law, were subsisting on the body of the husband and father. Several had perished of starvation.

The Democratic papers, North and South, are bitterly denouncing certain of the Northern States for enactments made some years ago, relative to the duties of State officers in connection with the recapture of fugitive slaves.

Some of these laws were unwise, and of no practical moment to anybody, and should be repealed. There is one thing, however, which should be remembered about these laws, now that they are assailed. Many of them were passed by Democratic Legislatures, and approved by Democratic Governors. That of Pennsylvania was passed unanimously in 1847 (not a member of any party in either House objecting), and it was signed and approved by the Democratic Governor, FRANCIS R. SHUNK. The Democrats had, in Pennsylvania, as much to do with the paternity of this law as the Whigs, and a little more.

Not only was it signed by Gov. SHUNK, without a word of disapproval or remonstrance from the Democratic party, but the provisions alluded to were inserted in the new Penal Code of the State, reported last winter to the Legislature by three Democratic Commissioners appointed to revise it—which Code was adopted by the Legislature, and approved by the present Democratic Governor, Wm. F. PACKER.

The Pennsylvania finds fault with Gov. PACKER, for going behind the certificate of the return judges of Philadelphia, and declaring Lehman elected to Congress in the First District, instead of Butler. The Pennsylvania declares Packer's course to be in violation of law.

We only allude to the matter for the reason that an attempt has been made by Democratic papers to identify the Republican party with the fraud of which the Return Judge, Byrly, has been convicted. No Republican paper has defended Byrly, or his fraud, and all agree in pronouncing his sentence of punishment just.

The Douglas men are pleased that Lehman has the certificate of election. The Breckinridge men were very anxious to defeat him, and Byrly, who attempted to cheat him out of it, is a Breckinridge Democrat. It came out on the trial, that Byrly and other Breckinridge Democrats had money bet against Lehman, and that it was to win their bets that they attempted the fraud, which was detected, exposed, and for which the chief perpetrator has been sentenced to the penitentiary.

This is a matter in which the Republicans are not complicated, as the fight is between the two wings of the Democratic party.

Negro Suffrage.
A proposition was submitted to the people of New York, at the late election, to change their Constitution, and give Negroes universal suffrage. It was voted down by over 100,000 majority. The State gave Lincoln 50,000 majority over all opposition, and is thoroughly Republican in sentiment. This verdict of the Republicans of New York against Negro suffrage, is in harmony with the opinions of Republicans everywhere.

This proof must also explode the charge made by Democrats that the Republican party is in favor of Negro suffrage. Their declarations are against it, and their acts Men can give no other evidence of their opinion. Thus falls to the ground another of the unfounded charges made against the Republicans by virulent and unscrupulous politicians.

WASHINGTON, Nov. 22.
The President to-day dispatched a special messenger and bearer of dispatches to Gen. Harney, with full instructions to take every means to capture Capt. Montgomery, and not to hesitate in dealing severely with him. As there are but three companies of cavalry under Harney, it is believed that he will assume the command of volunteers, especially as the government has no objection to suspend specie payments for a short time. It is contemplated to pay officials treasury notes. This happened in 1857.

Three Cheers for Latimore!
"Wolford's School-house," in Latimore township, must be located in a good neighborhood. We understand that out of sixty-six pupils attending school at the above place, no less than sixty-five are for Lincoln!—one only, left to represent "Democracy."

WASHINGTON, Nov. 22.—There have been no special meetings of the Cabinet to consider questions growing out of the secession movements. Harmony has hitherto characterized their proceedings. It was to-day authentically stated that nothing has recently occurred in their deliberations to produce distraction.

The President to-day received the dispatch of Judge Williams, from Warsaw, acquainting him with the alarming state of affairs in Kansas. Additional orders have been transmitted to Gen. Harney to resort to all the available means within his reach to crush the insurgents.

AN ANCIENT TREE BLOWN DOWN.
The well-known "old elm," of Somerset, Mass., which grew near the river, in the centre of the village, and supposed to be from 400 to 500 years old, was blown down a few nights ago, by a fierce gale. It was 100 feet in height, and the girth of the trunk was 66 feet.

HOT WEATHER.—The heat in the Red Sea last October was positively awful. On one steamer 84 passengers were prostrated by the hot blast from the shore, and fatal results were the consequences.

Court Doings.
The November Term of Court was held last week—President Judge FISHER and Associates ZIEGLER and WIERMAN on the Bench. The following cases were disposed of:

COMMON PLEAS.
John Kindig vs. Gettysburg Railroad Company. Appeal by Plaintiff from the award of view. Verdict for Plaintiff—\$472 50 damages.

Jesse D. Newman vs. Peter Graybill. Judgment by consent of Parties, for Plaintiff, for \$327 75.

David Schriver vs. Jacob Hankey's Executors.—Summons in trespass, growing out of a disputed line. The jury retired at 12 o'clock on Saturday night, and at 9 o'clock on Monday returned a verdict of \$35 damages for Plaintiff. Motion for a new trial by Defendants.

QUARTER SESSIONS.
Commonwealth vs. Kesiah Cuff.—Assault and Battery on person of Franklin Thomas. Verdict—Guilty. Sentenced to pay a fine of \$1 and costs.

Commonwealth vs. John Hildebrand.—Indictment for Assault and Battery on person of Reuben Stahl. Verdict—Not Guilty. Defendant (John Hildebrand) to pay costs of prosecution.

Commonwealth vs. Singleton Weldon.—Malicious mischief—disfiguring and wounding of helper of Jeremiah Herrigan. Verdict—Not Guilty of disfiguring, but Guilty of wounding. Motion for a new trial filed by Defendant's counsel.

Commonwealth vs. Daniel Forney.—Assault and Battery on person of Lydia Forney. Verdict—Not Guilty of battery, but Guilty of assault. Sentenced to pay a fine of \$5 and costs.

The Grand Jury granted a certificate for the incorporation of the Borough of Littlestown—now a thriving place. No Bridges were granted. The Grand Jury was discharged at noon on Wednesday.—Com.

Jollification at Fairfield.
On Wednesday night, as previously announced, the Jollification at Fairfield came off, and was indeed a grand affair. Our friends in Hamiltonian never attempt anything of the kind without doing it right. When they go abroad to celebrate our victories they turn out strong, but when they meet together at home for the same purpose they turn out stronger, and do it much better. The town was beautifully illuminated, twelve large bonfires were kindled at proper intervals along the street, whilst the display of fireworks was truly grand. In the procession, which was formed and marched through the streets, was a tree, on which was fixed 16 large torches representing the 16 States that Lincoln has positively carried. Among the delegations that arrived in the evening was one from Mr. WILLIAM CULP, marshaled by JACOB AUGHINBAUGH, Esq. They came in on foot, numbering some 18 or 20, each bearing on his shoulder a rail. The meeting was organized by the appointment of the following officers:

President—BARNIBAS RILEY.
Vice-President—John Musselman, David Stewart, David Musselman, A. H. McGreevy, Henry Witrode.
Secretaries—E. McGinly, Adam C. Musselman, David Byers.

The meeting was addressed at length by D. A. BUEHLER and S. J. VANDESLIOT, Esquires, in their usual able manner. Everything passed off pleasantly and with much credit to all.—Star.

Jollification at Littlestown.
On Thursday evening last, our friends had a grand time at Littlestown. They came from far and near and all directions to rejoice over our recent victories. The town was beautifully illuminated, bonfires kindled and streamers and arches of evergreen extended across the streets. There was also a fine display of fireworks. After the procession, the meeting was organized by Hon. SAMUEL DUBROWAY, by the appointment of the following officers:

President—DANIEL BASHEAR.
Vice-Presidents—Jacob Witt, Enoch Leffever, Charles Spangler.
Secretaries—William Bang, Lewis Carbaugh, Alfred P. Starr, Henry Bang, John Hostetter.

Hon. EDWARD McPHERSON was present and addressed the large audience in his usual happy and eloquent style. The great enthusiasm prevailed and everything passed off pleasantly.

The whole position of the Georgia and other Southern Democrats proves their infidelity to the Constitution. In truth, the Southern Democrats, as a class, have been for a quarter of a century hostile to our Constitution, which does not breathe their spirit. While they were permitted to administer it, they pretended to be its friends. Now, that they are voted out, they show their cloven foot, and reveal their real nature. A few months only will be required to make the demonstration complete, and to prove that the Republican is the only Constitutional party, around which all the conservative, preservative, and patriotic elements of our people can gather.

A CHILD'S DEATHBED.—Marion Bitter, a little boy four years old, was so badly scalded in Philadelphia on Saturday week, by falling head first into a large kettle of boiling water, that he lived but a few hours. He was comparatively easy after his wounds were dressed, and during the last hour of his existence, as he lay in bed, sang the hymns taught him in the infant school—the last being the beautiful one commencing with the words, "I have a Father in the Promised Land."

TRIED AND ACQUITTED.—A person looking over the catalogue of professional gentlemen of the bar, with his pencil wrote against the name of one who was of the bustling order: "Has been accused of possessing talents." Another seeing it, immediately wrote under: "He has been tried and acquitted."

The more excitable politicians of the Slave-holding States declare that they are dissatisfied with the Constitution as it is, and propose to amend it. For years, they have pretended to be entirely satisfied with it, and to be its peculiar guardians—attacking their opponents on the ground that they were not sufficiently attached to that sacred instrument. It turns out, that their profession was a mere sham, and that they not only desire, but demand, not only one, but several changes in the organic law. Their demand proves the truthfulness of the charges made by the Republicans, that the Southern Democrats were at heart disloyal, and would lend themselves to the work of altering the Constitution and Government, whenever their interests appeared to call for it.

We copy from the Baltimore Sun of Thursday last, the 22d inst., the following paragraphs on the subject:

Resolutions are pending in the Legislature of Georgia instructing the Senators and Representatives in Congress from that State to demand a convention of all the States forthwith to make the following amendments to the Constitution of the United States:

1. That there shall be a full and distinct recognition of property in slaves, and the right of the owners to pursue and recover them whenever they flee from service and wherever found, and that they have the right to carry into, and be protected in the possession of their slaves, in any territory of the United States. And when the citizens of any Territory shall form a constitution excluding slavery therefrom, they shall have the right to withdraw the slaves therefrom and carry them into any slave State or Territory of the United States.

2. That it shall be made treason for any person to obstruct, impede, hinder, or prevent the recovery of fugitive slaves by any means whatever in any of the States of the Union.

3. That no negro, mulatto, or other person having negro blood, shall, under any pretence whatever, or in virtue of any law made by any or either of the States, be permitted to vote for President, Vice-President, or members of Congress.

4. That Congress shall not hereafter pass any law to impose duties on importations in the United States for protection, but only for revenue.

If Congress fail to comply with this demand until the 1st of March, then, on that day, Georgia will "assume her position amongst the nations of the earth, free, sovereign and independent," and will thenceforth "hold the abolition States as she holds the rest of mankind—enemies in war, in peace friends."

It appears that four amendments are desired.

The first demand made, impliedly asserts that the Constitution, as it now is, does not recognize property in Slaves, the right to recapture them wherever found, and the right to hold them in a Territory against the local law.

The second proposes to change the definition of Treason from the language employed in the Constitution, and to give it a wider sweep than any law-writers or authorities have ever done. It is not likely the country will ever accept such a condition.

The third demand does a great unkindness to those Democratic Legislatures and Governors, who have given Negroes the right of suffrage. It is certain, that the Republican party has done nothing of the sort, for no such privilege has been conferred since the Republican party had existence. The only record the Republicans have made on the subject, is in New York, where, at the late election, they gave a majority of 100,000 AGAINST conferring upon Negroes universal suffrage.

The fourth demand is aimed at Free White Labor, and especially at such Free States as Pennsylvania, which refuses any longer to bow its back to Slave holding Free Traders. The making of this demand, is also an admission of the power of Congress, under the Federal Constitution, to protect American Industry. This has been hitherto denied by Free Traders. It appears they are not satisfied with their own reasoning, and now require an express prohibitory clause in the Constitution.—They will never get it, while Free Labor is sensible of its needs, and rights.

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

A Stupendous Confidence Game.

A SOUTHERNER SWINDLED OUT OF TWENTY THOUSAND DOLLARS.—The latest confidence game we remember ever to have heard of, is said to have been successfully practiced in St. Louis on Saturday last, upon a rich planter from near Nashville, Tennessee, named T. L. Newcomb. This gentleman, according to the St. Louis papers, is worth \$100,000, and came to that city to invest \$20,000 in a real estate. He made the acquaintance of a man named Johnson, with whom he had several interviews last week. On Saturday, Johnson, it is alleged, having represented himself as a man of wealth, informed Newcomb that he had just closed a contract whereby he had agreed to furnish the city with cellular iron pavement sufficient to pave six hundred blocks, but unfortunately he had no ready money sufficient to engage in the enterprise, and he would be obliged to mortgage his real estate to raise the necessary amount. Newcomb, who did not care to do so, however, if Newcomb would loan him \$20,000, he would give him a share of the profits. Mr. Newcomb, not for a moment doubting his honesty or his story, agreed to this and loaned him the sum of \$20,000 in cash on the spot, and gave the remainder—\$12,000—in bank certificates, which he helped Johnson to collect at different banks in St. Louis. Johnson, therefore, got his \$20,000, immediately disappeared, and has not been seen since.

St. Louis, Nov. 15.—The soap, candle and oil factory situated at the junction of Market street and Chouteau avenue, three miles west of the city, was burned last evening. The loss is estimated at \$80,000, on which there was a partial insurance.

A delightful place of residence must be the city of Lisbon, where it is said on the authority of a foreign correspondent of a London journal, that one hundred professional assassins gave a livelihood by their peculiar vocation.

"ADE LINCOLN" AN INVENTOR.—We were this morning shown at the U. S. Patent Office the model of a steam engine combining buoyant air chambers with a steamboat or other vessel, for the purpose of enabling their draft of water to be readily lessened, that they might pass over bars or through shallow water without discharging their cargoes. This method of lifting vessels over shoals was invented by Abraham Lincoln, President elect, and for which he received a patent May 22, 1849.—*Wash. Star.*

TERRIBLE TRAGEDY.—The Fort Wayne (Ind.) Times says that a most terrible and fatal accident, with consequences still more terrible, occurred in Adams county the other day. The story is at once the briefest and most awful we have read of in many a year. A woman about to churn butter, threw some boiling water in the churn, into which one of the children had, unnoticed by the mother, placed an infant, and it was instantly scalded to death. In her frenzy the mother seized a chair and inflicted a death blow upon the little girl. After realizing what she had done she threw herself into the well and was drowned.

GRAT BATTLE IN PERSIA.—The Persians have recently fought a great battle with the wild Turcomans, who depredate on their northwestern frontier. About the first of October, Prince Mirza, with 10,000 infantry and 4,000 cavalry, attacked the Turcomans, near Mero, and after a nine hours' fight, completely overwhelmed them, killing some 4,000 and taking about the same number prisoners. They also took great numbers of horses, camels and arms. The Persian loss was considerable.

Yale Agricultural Lectures.

The public will be gratified to learn that the novel experiment of the Yale Agricultural Lectures of last winter was so successful as to induce its repetition this winter on a more complete scale. The course will commence Feb. 5, and continue through the month. These lectures, which are of great value to the whole country, and worthy the attention of every cultivator, are given under the auspices of the Yale Scientific School, or Scientific Department of Yale College, as a supplement to its newly-instituted course of practical collegiate education, and for the benefit of the public at large. A new and important feature of this course will be its complete illustration by specimens, drawings, models and animals. Life-sized paintings of groups from celebrated herds will be included in these illustrations. The lectures on training and breaking horses are to be accompanied by practical illustrations. The lecturers of last year will take part in the course, and other eminent names, with a variety of new subjects, will be added to the list.

The expenses of the course are provided for in part by subscription. The lectures are under the direction of Prof. John A. Porter, who may be addressed for further information, at New Haven, Conn.—*American Agriculturist.*

ROHRER'S PRACTICAL CALCULATOR.

We refer our readers to a descriptive advertisement of the above Work in another column. It comes highly recommended as supplying a public want, in offering a compact, portable form, plain, simple Rules for every Calculation required for ordinary business. To the man who has so far outgrown his schooling as to feel rusty when called upon for work or estimates out of the line of his every day transactions, it affords the clue most readily and conveniently; while to one deficient in all but the rudiments of a mathematical education, its lucid Rules and Examples are sufficient to enable him to solve every question presenting itself in any but extraordinary business transactions. As a handy book of reference it is invaluable, and may be relied on as authority.

Remember, Strumous or Scrofulous affections are the curse, the blight, of mankind. They are vile as well as fatal. They arise from impurity and contamination of the blood, and are to be seen all around us, everywhere. Thousands daily are consigned to the direful effects of this disease. But why trifle any longer, when the remedy is at hand? Dr. LITTLE'S Blood Purifier is the only effectual preparation now before the people, that does its work mildly and safely. It does not close the issue superficially, while

THE ADAMS SENTINEL AND GENERAL ADVERTISER.

The Sheriff, WOLF sold on Saturday week, the property of W. W. PAXTON, Esq., on Chambersburg street, at \$1,000—purchaser PHILIP WINTER.

We take pleasure in calling attention to the advertisement of R. NEWELL'S Gallery of Art. The testimonials are of the highest character.

Our neighbor POLLEY has just completed a very neat brick building opposite the Globe Hotel, where he and Mr. COOKE have everything in very beautiful order. The former has every variety of Stoves, of the rarest patterns, and at very cheap rates; whilst friend COOKE attends to the Tin-work, Spouting, &c., promptly, and executes work in the best manner. Give them a call in their new habitation.

SHRADS & BUEHLER'S Store is well worthy of a visit just at this time. We doubt whether, even in our largest cities, so fine a display of Stoves can be found. Their large room is stored full of Stoves of every pattern; also, every variety of Hollow Ware, Sheet Iron Ware, Tin Ware, Plated Ware, Japan Ware, Tin Ware, Plated Ware, &c., &c. They are prepared to sell wholesale and retail, Tin Ware, and Sheet Iron Ware, of their own manufacture—keeping a sufficient number of hands to supply any demand. Their assortment of Lumber is very large; also, Coal, of every kind.

AYERS' CURE: "This cure is the paragon of all that is to be had in medicine. They who have used it can assure you that your hands and feet had proved better for years. My mother has been long green with life. After a little use of this cure, she has lost her hair. After our child was born, also, she used it, and, they have cured her."

ASA MORGIDGEE.

As a Family Physician.
From Dr. F. W. Cutler, New Orleans, Feb. 24, 1856.

"The Pills are the prince of purges. Their excellent effects upon the system are well known. They are that very certain and efficient in their action on the bowels, which makes them invaluable to us in the daily practice."

Headache, Sick Headache, Foul Stomach.
From Dr. Edward Boyd, Baltimore.

DEAR AYER: I cannot express my joint complaints of the liver and bowels, and your medicine has cured me with a purgative medicine. I have great dependance on an official certificate in my daily contact with you and believing in your medicine I have taken the two, I of course value their highly. *Wm. C. Dyer.*

DEAR AYER: Sir I am 25 years of age, I have a great variety any body can have by the use of J. C. Ayer's Pills. It seems to arise from a flat stomach, and I have great respect, *Edw. M. Fienley,*

DEAR AYER: I have been suffering from Chronic Disorders—Liver Complaints, from Dr. Theobald Hall of New York City. I only use your Pills and find them adapted to their purpose as a purgative but I submit that medical ethics only can be the basis of a safe and successful treatment. I have controlled more effectively for the cure of bilious conditions than the usual means of medicine. I have been told that we have at length a purgative which is worthy of confidence of the profession and the people.
